COMMITTED FOR SUPERIOR
QUALITY - RESULTS & SERVICES

MODEL	MDM - 25
CAPACITY	20-30 Tons / Hour

With years of experience in asphalt mixing, strategic technology tie-ups and an installed base, Kesar has mastered the continuous Asphalt Mixing Technology. Kesar plants are renowned for quality of mix, lower operating costs, productivity, efficiency and high uptime. Now, Introducing, The MOBILE DRUM MIX PLANT technology offering a lot more features & flexibility to our valuable customers.

- ♦ This is Mobile automatic asphalt plant 20 - 30 TPH it is ideal for small work and Hilly terrains
- ♦ This Machine does not even require any erection commissioning & requires less no. of other infrastructures such as Dumpers
- ♦ Built in Fuel Tank on the Feeder - Thermodrum unit - 10 ton capacity Bitumen Storage Tank - Control Cabin with control Panel

ADVANTAGES

- ♦ Economy in set up- portability in production
- ♦ Offers total mobility
- ♦ Self-erecting model requires no crane for installation
- ♦ Perfect for remote areas
- ♦ Completely pre-wired- get set and go
- ♦ Sets up & packs up with a minimum number of loads & components need not wait on one another to move out
- ♦ No civil works - massive savings
- ♦ Optimum utilization of plant site

THIS IS A NEW STRATEGIC AND PRE-WIRED MACHINE IN ASPHALT PLANT INDUSTRIES.

ULTRA COMPACT

The entire plant consists of two trailers only 40 feet Trailer No.1 consists of 2/3 bin cold aggregate feeder, Thermo-drum unit with burner, 1 kl fuel tank, primary dust collector, exhaust system and Load out conveyor. 40 feet Trailer no. 2 consist of 10 Ton cap. Bitumen tank and control cabin with centralized & computerized control Panel or optionally Bitumen Tank & control cabin can be separately transported on wheels by Tractor also as per customer's choice.

ULTRA MOBILE

This Mobile plant does not need any crane for erection at site and can be put into operation in 2/3 days only. It is therefore, really a tactical piece of equipment for hilly remote areas and for small quantity works.

ERGONOMIC

The Plant combines aesthetic with comfort for the operator & makes plant operation maintenance easier. From control cabin, the operator can control discharge of hot-mix into tipper with full clear vision. A painful task of dismounting and remounting of stationary plant when transferred, are suppressed by this mobile model.

ECOLOGICAL

This is an elegant machine and also very respectful of user-friendly & environment friendly as well.

ECONOMIC

Besides low investment costs, this mobile MDM-25 drastically reduced costs linked to transfer, mounting and start-up of stationary plant. With only few days' production, they can be paid off. Besides, thanks to its noble features, maintenance expenses may be significantly cut. No costly civil foundation required, thus massive saving.

MACHINE COMPLETED & TESTED IN FACTORY

Since entire plant is mounted on two number semi trailer type chassis, it is totally controlled in factory. All adjustments of the machine, except load cell calibration are carried out by the manufacturer's specialists during idle test run. Therefore, when leaving factory the machine ensures good performance at work site.

Thus buying such a machine is truly a strategic investment.

WE ASSURE OUR ALL CUSTOMERS THAT WE WILL PROVIDE THEM THE BEST QUALITY MACHINES AT AN ECONOMICAL COST - PROMPT SERVICES - BEST CO-OPERATION AT ALL TIMES.
