WET MIX MACADAM PLANT (SOIL STABILISING PLANT)

Because, they are 'the best' in all respect for high productivity, best performance & ample profitability.

'KESAR' is a leading supplier of WET Mixing Macadam Plant and machinery, with the focus very firmly on road building. Ever since we established, we have been setting benchmarks in the road-building industry, thanks to countless innovations and solutions which are as competitive as they are dependable. True to our motto - "High Productivity, Performance & profitability" - we gear our activities totally to the needs and requirements of our clients across the globe.

We are aware that plants and machines which prove their merits day after day under tough operating conditions are the only way to give our clients the critical competitive edge that they need.

We're entering a new era of development, energy crisis & environmental concerns. Our customers &

their challenges are the impetus to our product development accolades.

We therefore, are convinced that sharing knowledge & experience helps us attain more & more.

Our customers must generate profits amid this turbulent times and varying needs. So, we focus on - 'sustainable and profitable development is highly manifested'- in our futuristic generation Wet Mix Macadam plants. Our each model inherits a tradition of over two decades of experience in working with clientele & evolving markets nation-wide.

The 'KESAR' WMM series offers customers the finest & proven technical solution, with international product support, latest generation process controls and automation together with total installation and site support, aimed to deliver precise mix - productively and profitably.

MODELS AVAILABLE WITH RATED CAPACITY IS

- ✦ WMM-100 (Cap. 100 Tons/Hour)
- ✦ WMM-200 (Cap. 200 Tons/Hour)
- ✦ WMM-160 (Cap. 160 Tons/Hour)
- ✦ WMM-250 (Cap. 250 Tons/Hour)

The WMM series plants are fully equipped to deliver precisely mixed cold mix, cement/lime treated aggregate base course mixes, emulsion treated mixes etc. Quality & specific steel construction along with high quality bought out components ensure maximum reliability and uptime.

Finest industrial design, built in to the product aims at uniform mixing, accurate proportioning and blending of aggregates and additives without segregation. The WMM series plants are fully equipped to deliver precisely mixed cold mix, cement/lime treated aggregate base course mixes, emulsion treated mixes etc.

Trouble Free design, built in to the product aims at uniform mixing, accurate proportioning and blending of aggregates and additives without segregation. The WMM plants are engineered to challenge the toughest of job site requirements and carry the hallmark of rugged structure and unrivalled quality built into the product.

Wet Material Mixing Plant for granular base and sub base production provides higher productivity with close control on quality of mix and production costs.

"KESAR" has rich experience in the field of Road Construction machineries especially in road construction coupled with the world best technology, guarantee, reliability and productivity In addition, our stringent quality control checks and wear tests ensures higher quality for all our machineries.

'KESAR' Wet Mix Macadam Plant, an application designed product built as per MORTH (Our Ministry of Road Transport & Highways Department) specifications for achieving homogeneous mix material of WMM / C.T.A.B. / G.S.B. layer to prepare sub-base/base in road projects.

'KESAR' Wet Mix Macadam Plant has unique design features makes it most efficient in terms of operational costs, and ensures close control of the quality of output. Available in fixed or variable speed drives, the plant is well equipped with adjustable gates at its bins. The design of twin shaft pug mill ensures fast, continuous & homogenous mixing of aggregates & additives. Besides, the surge hopper arrangement allows discharge into trucks without shutdown & spillage.

To know more or to upgrade your existing plant system with remote assistance, please don't hesitate call us now.

We assure our all customers that we will provide them the best quality machines at an economical cost - prompt services - best co-operation at all times.

Thanking you and assuring our best quality product and services at all times.

WE ASSURE OUR ALL CUSTOMERS THAT WE WILL PROVIDE THEM THE BEST QUALITY MACHINES AT AN ECONOMICAL COST - PROMPT SERVICES - BEST CO-OPERATION AT ALL TIMES.
